Steve & Jayne,

There definitely appears to be some confusion between Steve and me over this issue. My reply comments attempt to clarify this. Please take a look and let me know what you think.

Thanks.

See Steve's comments. Does that address any of yours?

Will discuss this on the next call (at the end so Allison and others who are not interested can leave).

Hi Steve,

Can you look at Don's comments pertaining to OGC interpretations as I believe he and I heard something different from you? Please correct.

Thanks!

Jayne

Jayne & others,

See my attached edits. I am recommending Option 7, which didn't exist until now.

Hi All,

If you have not already started your review, please use the attached version instead. I added calculations tables (I will need to check the calculations for accuracy; however, I would appreciate your checking to make sure I included all of the options you explored last spring) and explanations. I also included date and time for version control.

Thanks!

Jayne
